

To: Computer User

From: Ford Simulator Project Team

Thank you for purchasing the Ford Simulator II. You'll find this year's software, along with instructions for its use, in the enclosed package.

If you're familiar with the Ford Simulator, you'll be pleased with the many enhancements to our new program. Ford Simulator II includes more driving simulations, more sophisticated computer graphics, and a comprehensive database of all Ford Motor Company vehicles. And, of course, last year's most popular features are back.

If this is your first Ford Simulator, you'll find a gold mine of facts, figures and/or fun in every section of the program. Test your driving skills with a variety of simulations, browse through the Electronic Showroom, study the Infocenter, then get engrossed in the Buyer's Guide. And don't forget to calculate a "window sticker" for your favorite vehicle. You can even print it out for reference during your shopping experience.

Since your opinions and responses are very important to Ford Motor Company, we have included a Customer Feedback section in the program. A postage paid reply envelope is enclosed for your convenience.

Please take a moment to read the enclosed instructions. Then boot up Ford Simulator II for a truly unique experience.
